Professional Summary

Front-End Engineer / Developer with 4 years of experience building scalable, high-performing, and user-centric web applications. Proficient in React, JavaScript (ES6+), TypeScript, Next.js, and modern UI frameworks, with a proven track record of delivering pixel-perfect interfaces, optimizing performance, and enhancing user experience. Adept at collaborating with cross-functional teams in agile environments and aligning development with business goals.

Key Value: Blend of development expertise and engineering depth — transforming designs into seamless, scalable digital experiences that increase user engagement, retention, and revenue.

Core Skills

- Frontend Development: HTML5, CSS3 (SASS/SCSS), JavaScript (ES6+), TypeScript

- Frameworks & Libraries: React.js, Next.js, Redux, TailwindCSS, Bootstrap, GSAP

- UI/UX: Responsive Design, Accessibility (WCAG), Figma-to-Code Conversion

- Testing & Quality: Jest, React Testing Library, Cypress

- Performance Optimization: Lighthouse, Webpack, Code Splitting, Lazy Loading

- Collaboration Tools: Git/GitHub, Jira, Agile/Scrum, CI/CD pipelines

- Additional Skills: WordPress Development, Headless CMS (Sanity, Contentful), REST & GraphQL APIs

Professional Experience

Front-End Developer — Tech Solutions Ltd (Lagos, Nigeria)

Jan 2023 – Present

- Built and optimized React & Next.js web applications serving over 100,000+ monthly users, achieving a 35% improvement in load speed and 25% higher engagement.

- Implemented Stripe payment integrations and dynamic shopping carts in an e-commerce platform, contributing to a 40% increase in online sales.

- Developed responsive dashboards for B2B SaaS clients, reducing onboarding time by 30% through better UI/UX flows.

- Collaborated with back-end engineers to integrate REST & GraphQL APIs, ensuring 99.9% uptime and seamless data exchange.

- Mentored 2 junior developers and introduced code review standards, raising team efficiency and reducing bugs by 20%.

Front-End Engineer (Contract) — Freelance / International Clients

Jul 2022 – Dec 2023

- Delivered custom WordPress & React websites for international clients across fintech, healthcare, and education, improving client retention by 50%.

- Converted complex Figma/Adobe XD designs into responsive web applications, cutting project delivery time by 20%.

- Integrated third-party APIs (Google Maps, Firebase Auth, social logins), enhancing user functionality and security.

- Built a progressive web app (PWA) for a US-based startup, leading to higher mobile engagement (↑ 45%).

Front-End Developer (Intern → Junior Developer) — InnovatinTech (Lagos, Nigeria)
Jan 2021 – Jun 2022

- Assisted in developing enterprise-level dashboards using React & Redux, used daily by 5,000+ business users.

- Spearheaded a project to implement dark/light mode toggling across applications, improving accessibility and user adoption.

- Collaborated with QA team to implement automated testing pipelines, reducing bug-report frequency by 15%.

Education
B.Sc. in Computer Science — [University of Nigeria, Nsukka], Nigeria — [2024]

Projects

- Modern E-Commerce Platform (React, Next.js, Stripe, Sanity CMS): Built a full-stack e-commerce app with cart logic, secure Stripe payments, and CMS-driven product management.

- Portfolio Website (React, GSAP, TailwindCSS): Interactive developer portfolio showcasing animation, smooth scroll, and responsive UI.

- DomestiPro (MVP App) – React Native + Firebase: A domestic worker–client matching app with profiles, chat, and notifications.

Certifications

- Meta Front-End Developer Professional Certificate
- Udemy- Full-stack web development Bootcamp

- FreeCodeCamp – Responsive Web Design & JavaScript

Achievements

- Delivered 7+ international projects (UK, US, Nigeria) with consistent 5-star client feedback.

- Recognized as a Top 1% Performer in a developer bootcamp.

- Increased revenue by 40% for an e-commerce client
